SUMMARY

I am a **dedicated, friendly** and **pro-active** individual with an assortment of valuable team-work and independent experience, ranging from multiple respective awards (NCS, Duke of Edinburgh) and accomplishments in education and the workforce.

I pride myself on my ability to self-improve, research and contribute; these are priorities I set and uphold myself. I offer **unparalleled presentation, communication, professional and IT/computer skills**. My greatest strengths are my enthusiasm, commitment, dependability and flair with technology, interpersonal-interaction and linguistics.

QUALIFIED

FRIENDLY

FLUENT GERMAN

PROFESSIONAL

Supporting customers, fundraising, customer interaction
Skills used: **public speaking**, communication, customer interaction

SKILLS

COMMUNICATION > I communicated with various depots, managers, drivers and departments daily and efficiently as a Fleet Administrator. I can confidently **covey instructions, communicate vital information** and **understand and undertake a task** with full dedication.

TIME MANAGEMENT > Deadlines are met **punctually** and to the best of my ability. I strive to meet expectations / deadlines. Having regularly resolved time critical breakdowns and situations, I understand, put great effort into and have a habit of delivering work and meeting expectations at the **expected time and quality**.

RESEARCH > I am highly self-disciplined and experienced in research both academically and personally. I am **committed** to confronting and seeking new knowledge and implementing it into the workplace to **consistently improve my performance**.

IT SKILLS > I have studied ICT at GCSE and completed an ECDL qualification. For my A-Levels I did exceptionally well in ICT and Computer Science and now I study Computer Science at Bangor University. As a result, I am **extremely proficient** in multiple technologies, operating systems and all Microsoft Office programs. I am very familiar with database manipulation and retrieval with SQL, MySQL Workbench and Microsoft Access. I am experienced in performing data analysis in Excel using advanced formulas, pivot tables, conditional formatting and charts.

PROBLEM SOLVING AND CREATIVE THINKING > My interest in programming, computing and mathematics, has refined my **problem-solving** and **creative-thinking** skills. I can critically assess a situation and provide a solution which is appropriate, **efficient** and **timely**.

PROGRAMMING > I am competent in writing advanced SQL queries and comfortable with Java (particularly software development). I have hands-on experience with HTML5 and Javascript through game development, image manipulation and canvas animation and interaction. I have used Python for shell scripting and C at university.

INTERESTS

I am very passionate about programming and language learning. I am currently learning German (B1/B2) and Japanese (JLPT N4), simply from an interest in culture and language itself. I have an interest in reading classic literature.
